We're showing things we've done the work we are doing and the things we do and we will send them in the other letters.

EXODO80 has eight programs that are sleeping because their only financial support broke. But through the work www.obama-biden.org would receive a donation as we could to work in other programs, that together would make a force that can work and work towards the improvement and metaphysical life balance, and this www.obama-biden.org program created by EXODO80 meets the philosophy of work for the improvement and metaphysical life balance, because: "the re-election in 2012 saved the nation and the world."
